“I provide warm, heart-connected and empathetic counselling, coaching, mediation and hypnotherapy services to individuals, couples and families. I concentrate on “wholistic” healing and empowerment rather than on being clinical and “helping”. Basically, I form what I call a “Healing Partnership” with the people who come for my services. I tend to be quite eclectic and bring a wide range of skills, techniques, modalities and wisdom to each counselling interaction. My knowledge of Spiritual Emergence and Cellular Consciousness from my hypnotherapy practice helps to heal wounds that are emotionally blocked.”
